MudShurko & THE OLD FARTS

Full Loopy!

A fully uncoupled band lurching round,
unbalancing the wondering amazed auditory.

Full Loopy! (Manna!)

The Farts meet together one times a year to tell the latest storys and exchanging views. This group reunions are always somewhat dangerous. Give a ear and you will understand.

This is adventurous Free-Rock!

There is not one note composed, this music falls from heaven like Manna! Or it comes up from hell. Sometimes together.

A fully uncoupled band lurching round, unbalancing the wondering amazed auditory.

This album is somewhat bullish. Working with the material I had doubt about, but when I heard the cutted tracks a second, third and fourth time I was able to appreciate.

But that's not exactly news, all the MudShurko music comes from elsewhere.
